

# Food Incubator Launch and Grand Opening of Word of Mouth, Ventures Food Truck at Westlake Park, Downtown Seattle

All photos by Linda Lowry

Like our retail incubator, the Food Business Incubator will provide experiential learning opportunities as well as revenue generation for local low-income food business owners. The Food Business Incubator's main feature will be Word of Mouth, a food truck in which aspiring small business owners cook and sell food for customers under the guidance of experienced food service professionals, while earning a revenue on sales. Funding will also allow Ventures to provide affordable prep space for aspiring catering companies and farmers' market businesses; and to sell packaged food products at our retail stores.
